Course Overview

Our popular immersion programmes offer students the opportunity to experience UK school life and culture, while attending a local school. Programmes can either be full-time immersion or combine this with 15 hours of English tuition each week. Immersion programmes are run through High schools in Oxford. In High schools, students are paired with a local student "buddy," who they will accompany to all of their lessons each day. Students taking part in an integration programme can expect to experience a variety of classes across the week and fully immerse themselves into British school life.

Who is this course suitable for?

Our immersion programmes are particularly suitable for students who already have a grasp of English and are looking to improve their fluency and confidence in an immersive language and cultural environment.
